

Good or Bad?

I must make a correction
to this miss-conception.

In theory is should
be hard to be good,
Easy to be bad.

Or is it good to be easy
and bad to be hard.

I have a brain armoury,
Or is it a bad memory.

Is my confusion
is down to a contusion?

Whatever,
Sniffle
Piffle.

I knew a little rascal,
He had some bad bits in his arsenal.

His criteria
Was inferior.

He was very misunderstood,
As parts of him were good.

The same as the majority,
Even a supreme authority.
